Distribution Engineer

Location: Billings, MT; Portland, OR

Description: Electrical Consultants, Inc. has an immediate opening for an experienced **Distribution Engineer** in the Billings, MT and Portland, OR offices. Successful candidate will serve as Design Engineer responsible for conceptual, preliminary, and final design of overhead and underground distribution facilities ranging in voltage from 480 V through 34.5 kV. Particular emphasis will be placed upon design of collector systems associated with renewable energy projects.

Responsibilities include preparing staking sheets, pole-top assemblies, trench details, cable sizing, specifications, studies and other engineering activities pertaining to the design of overhead and underground distribution facilities ranging in voltage from 480 V through 34.5 kV. Occasional travel required.

Minimum Requirements: BSEE or equivalent degree, 5+ years' direct experience in distribution line and/or collection system design or combination of education and experience; PE preferred. Excellent communication, organizational and writing skills a must as candidates will be responsible for client interface and preparation of project design documents including technical designs, plan & profile (structure spotting), staking sheets, contracts and specifications. **Successful applicant must not require immigration sponsorship now or in the future.** Successful applicant may be subject to client mandated drug and background checking. Occasional travel/driving may be requested. Successful applicant is subject to ECI's auto insurance carrier requirements.

Salary commensurate with experience and education. Benefits package includes:

- Health, Dental and Vision Insurance
- Flexible Spending Account
- Life Insurance
- Short and Long Term Disability Insurance
- 401(k) Retirement plan
- Profit Sharing up to 15% of base wage (capped)
- Paid vacation, personal days and holidays
- Paid Professional Society Dues
- Continued Professional Education Reimbursement

Electrical Consultants, Inc. (ECI) employs over 500 engineers, designers, project managers, surveyors, ROW agents, environmental planners, construction professionals and support staff in 14 offices across the U.S. The firm has thirty years of experience in the planning, engineering and construction of a wide range of power delivery projects including substations, transmission lines, distribution systems, communication systems and industrial facilities.
