Drafter/Designer

Location: Lake Oswego, OR

Description: Electrical Consultants, Inc. (ECI), a leading power engineering consultant firm, is seeking a motivated individual to join the team in our Portland, OR (physically located in Lake Oswego, OR) office as a drafter/designer. The successful candidate will be responsible for drafting and design support to multiple design teams involved with conceptual, preliminary, and final design of station projects 34.5 kV through 500 kV.

Utilizing CAD will prepare electrical, civil and physical drawings for substation and transmission line projects. Designer will perform higher level CAD design functions as well as develop material lists, specifications and construction packages.

Minimum Requirements: 2+ years' experience with high voltage substation design required. Successful applicant must be proficient in AutoCAD and possess a strong computer aptitude in a Windows environment. MicroStation experience preferred but not required. Successful applicant may be subject to client mandated drug and background checking. Occasional travel/driving will be required. Successful applicant is subject to ECI's auto insurance carrier requirements. **Successful applicant must not require immigration sponsorship now or in the future.**

Salary commensurate with experience and education. Benefits include:

- Medical, dental and vision insurance
- Flexible spending account
- Health savings account
- Life insurance
- Disability insurance
- 401(k), profit sharing and employee stock ownership plan
- Paid vacation, personal days and holidays
- Continued professional education reimbursement

Electrical Consultants, Inc. (ECI) employs over 450 engineers, designers, project managers, surveyors, ROW agents, environmental planners, construction professionals and support staff in 15 offices across the U.S. The firm has 30 years of experience in the planning, engineering and construction of a wide range of power delivery projects including substations, transmission lines, distribution systems, communication systems and industrial facilities.
