### **Drafters/Designers**

**Location:** Portland, OR

**Description:** Electrical Consultants, Inc. (ECI), a leading power engineering consultant firm, is seeking motivated individuals to join the team in our Portland (Lake Oswego), OR office as Drafters/Designers. The successful candidates will be responsible for drafting and design support to multiple design teams involved with conceptual, preliminary, and final design of station projects 34.5 kV through 500 kV.

Utilizing CAD will prepare electrical, civil and physical drawings for substation and transmission line projects. Designers will perform higher level CAD design functions as well as develop material lists, specifications and construction packages.

**Minimum Requirements:** 5 – 10+ years' experience with high voltage substation design required. Successful applicants must be proficient in AutoCAD and MicroStation and possess a strong computer aptitude in a Windows environment. Successful applicants may be subject to client mandated drug and background checking. Occasional travel/driving will be required. Successful applicants are subject to ECI's auto insurance carrier requirements. **Successful applicants must not require immigration sponsorship now or in the future.**

**Salary commensurate with experience and education. Benefits package includes:**

- Health, Dental and Vision Insurance
- Flexible Spending Account
- Life Insurance
- Short and Long Term Disability Insurance
- 401(k) Retirement plan
- Profit Sharing up to 15% of base wage (capped)
- Paid vacation, personal days and holidays
- Paid Professional Society Dues
- Continued Professional Education Reimbursement

Electrical Consultants, Inc. (ECI) employs over 450 engineers, designers, project managers, surveyors, ROW agents, environmental planners, construction professionals and support staff in fourteen offices across the U.S. The firm has thirty years of experience in the planning, engineering and construction of a wide range of power delivery projects including substations, transmission lines, distribution systems, communication systems and industrial facilities.
