## ASTM Committee on Electrical Protective Equipment for Workers Honors ECI's Own

*Quoted from ASTM Standardization News (November/December 2015 Issue)*

ASTM Committee F18 on Electrical Protective Equipment for Workers has presented its Award of Excellence to Ernest J. Pauliny Jr., Senior Project Manager at Electrical Consultants, Inc. in Cranford, New Jersey.

The committee noted Pauliny's service as F18 chairman, a role he has held since 2010. He works on several F18 subcommittees, and served a term on the ASTM Committee on Technical Committee Operations, where he chaired the Subcommittee on Regulations. Pauliny has been an ASTM member since 1994.

Pauliny has worked with several major electrical utilities in the northeastern United States for more than 30 years as an electrical engineer. In addition to developing electric distribution standards for job safety and hazard analysis, his work has included electric facilities relocations; and the planning, design and layout of electric facilities.
