Substation Project Engineer

Location: Billings, MT

Description: Electrical Consultants, Inc., a leading power engineering consultant firm, has an immediate opening for an experienced substation project engineer in the Billings, MT office. This position will be responsible for the execution and administration of large sized engineering projects, utilizing skills to demonstrate creativity, foresight and mature engineering judgment. Successful applicant will work with multiple design teams involved with conceptual, preliminary, and final design of station projects 4.16 kV through 500 kV. Diligence in the education and training of less experienced staff is an expectation. Occasional travel required.

Minimum Requirements: BSEE, 4+ year's substation design and project engineering experience in the utility engineering industry; PE preferred. Proven experience managing a team. Excellent communication (verbal and written), organizational and writing skills. Successful applicant may be subject to client mandated drug and background checking and is required to meet the requirements of ECI's auto insurance carrier. **Successful applicant must not require immigration sponsorship now or in the future.**

Salary commensurate with experience and education. Benefits include:

- Medical, dental and vision insurance
- Flexible spending account
- Health savings account
- Life insurance
- Disability insurance
- 401(k), profit sharing and employee stock ownership plan
- Paid vacation, personal days and holidays
- Continued professional education reimbursement

Electrical Consultants, Inc. (ECI) employs over 450 engineers, designers, project managers, surveyors, ROW agents, environmental planners, construction professionals and support staff in 15 offices across the U.S. The firm has 30 years of experience in the planning, engineering and construction of a wide range of power delivery projects including substations, transmission lines, distribution systems, communication systems and industrial facilities.
