Transmission Project Manager

Location: Madison, WI

Description: Electrical Consultants, Inc., a leading power engineering consultant firm, has an immediate opening for an experienced transmission engineer to serve as a transmission project manager in Madison, WI. The successful candidate will be responsible for leading multiple design teams in the conceptual, preliminary, and final analysis and design of Transmission and Distribution projects ranging from 4160 V through 765 kV.

Responsibilities include organization, direction and assistance to multiple design teams in the preparation of technical criteria, scoping and specification documents, finite element transmission line models based primarily in PLS-CADD, detail drawings to support contractor and fabricator activities, and detailed construction packages. Additional responsibilities include developing, maintaining and monitoring project budgets, schedules, and reporting; training and mentoring less experienced design team members; resource management; cost estimating and proposal development; communication and coordination with clients; quality control review of client deliverables; field investigation work; and engineering support for construction. Occasional travel is required.

Minimum Requirements: BSCE or BSEE degree or equivalent industry experience; 10+ years of transmission design and project engineering/management experience in the utility engineering industry; PE licensure or the ability to obtain it; a solid working knowledge of the PLS-CADD suite of design software tools and other common industry design tools. Experience in lattice tower design and AutoCAD and Bentley products is a plus. Excellent communication, organizational and writing skills are a must, as well as proficiency in MS Word, MS Excel, and Adobe. Successful applicant may be subject to client mandated drug and background checking. Successful applicant is subject to ECI's auto insurance carrier requirements. Successful applicant must not require immigration sponsorship now or in the future.

Salary commensurate with experience and education. Benefits package includes:

- Health, Dental and Vision Insurance
- Flexible Spending Account
- Life Insurance
- Short and Long Term Disability Insurance
- 401(k) Retirement plan
- Profit Sharing up to 15% of base wage (capped)
- Paid vacation, personal days and holidays
- Paid Professional Society Dues
- Continued Professional Education Reimbursement

Electrical Consultants, Inc. (ECI) employs over 450 engineers, designers, project managers, surveyors, ROW agents, environmental planners, construction professionals and support staff in 14 offices across the U.S. The firm has 30 years of experience in the planning, engineering and construction of a wide range of power delivery projects including substations, transmission lines, distribution systems, communication systems and industrial facilities.
